Continuity is Key

We work with some of the top UK companies and we're on the Preferred Supplier list for the big groups. We often work directly with in-house departments for major blue chip companies yet we also have many smaller clients that consist of boutique and specialist companies. All of our clients receive the same level of excellence, care, and integrity.

And while most of our clients are in the UK & Ireland, we have an increasing number that are out there in the big wide world. There is a high demand for UK talent, and we work with a number of companies who want to attract UK skills elsewhere.

We are lucky to have a very low staff turnover, which is rare in this industry. We like to think it's because we're nice, honest, straight-forward people who work with. We don't take ourselves too seriously and above all, enjoy what we do. That and the bribery, of course.

Our Clients & Candidates

123 Recruitment and Training works with businesses of all shapes and sizes, across a full spectrum of market sectors and geographical locations.

We understand how difficult it is to find the right people and to retain them. It's the driving force behind our business. But by working closely with our clients to understand their challenges, needs, and objectives, we achieve that time and time again.

“We don't wait for opportunities, we create them.”
